PROFESSIONAL SUMMARY

Backend-focused software engineer with 4+ years of production experience building secure RESTful APIs, payment integrations and data-driven applications with Python, Django and Django REST Framework. Experienced with PostgreSQL, JWT/OAuth2 authentication, Paystack and AWS deployments, with fintech-style projects covering banking, trading and ledger systems. B.Tech in Mathematics (Operations Research and Computational Mathematics). NYSC service completed September 2026.

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), SQL, HTML5, CSS3

Back-End: Django, Django REST Framework (DRF), Node.js, Celery, Redis, RESTful API design, JWT/OAuth2

Databases & Cloud: PostgreSQL, AWS (EC2, RDS, S3, API Gateway, CloudWatch, WAF)

Front-End: React.js, Vite, Tailwind CSS, Bootstrap

Integrations & Tools: Paystack payment integration, Git, code review, TDD, CI/CD practices, Agile/Scrum

PROFESSIONAL EXPERIENCE

Procurement & Administrative Support (NYSC) **Sept 2025 – Sept 2026**

Somolu Local Government Council, Lagos, Nigeria

- Digitized procurement records and vendor databases for 50+ contractors, improving data retrieval efficiency by 40%.
- Applied mathematical modeling to statistical cost analyses, optimizing budget allocation across government projects.
- Coordinated delivery schedules and communication between the council and 50+ registered contractors.
- Completed one year of national service and received a Certificate of Recognition for volunteer service at the 2025 Somolu Local Government Free Summer Coaching.

Frontend Developer Intern **Jan 2026 – May 2026**

New Horizons Computer Learning Centers (UNILAG, Akoka branch), Lagos, Nigeria

- Built responsive interfaces with React.js, Tailwind CSS and JavaScript while completing the Full Stack Web Development (Front End) programme.
- Translated design wireframes into interactive web components.

Backend Developer & Instructor **May 2022 – July 2024**

AnchorSoft Academy, Lagos, Nigeria

- Architected secure, scalable back-end systems using Python, Django and DRF, powering multiple client-facing applications.
- Designed and delivered RESTful APIs enabling integration between mobile/web frontends and PostgreSQL databases.
- Mentored 100+ students in web development and API deployment, achieving a consistently high course completion rate.

Full-Stack Web Developer **June 2021 – April 2022**

AnchorSoft Academy, Lagos, Nigeria

- Integrated Paystack payment gateways for e-commerce and subscription platforms, enabling secure transaction processing.
- Deployed and managed cloud databases on AWS RDS and EC2 across production environments.
- Built responsive, user-centric interfaces with HTML5, CSS3, JavaScript and Bootstrap for client-facing web applications.

FEATURED PROJECTS

Montreux & Co. (montreux.onrender.com): Decoupled fashion e-commerce platform with a React (Vite) frontend and Django REST Framework backend, PostgreSQL, token authentication, Paystack payments and an admin portal for inventory and media management.

Brokage Hub (brokershub.onrender.com): High-traffic real estate platform; performance optimizations reduced page load times by 20% and increased user engagement by 30%.

EmpireCodes (empirecodes.com.ng): Community blogging platform supporting 500+ active users with real-time notifications and custom UI/UX design.

Fintech demo systems: Skindia Bank (transaction integrity and admin controls), Prairie Wealth (ledgers and tax assessments), BlueStick Trading (trading dashboards). Live demos are listed on my portfolio.

EDUCATION

Bachelor of Technology (B.Tech), Mathematics **2018 – 2024**

Olusegun Agagu University of Science and Technology (OAUSTECH), Okitipupa, Nigeria

- Second Class Honours (Lower Division) | GPA: 3.21 / 5.0 | Degree conferred 21 November 2024
- Focus: Operations Research, Computational Mathematics, Advanced Calculus, Abstract Algebra

CERTIFICATIONS & NATIONAL SERVICE

- Certificate of National Service, NYSC (service 24 Sept 2025 – 23 Sept 2026)
- Java Programming (in progress), New Horizons Computer Learning Centers, Ikeja branch
- Full Stack Web Development (Front End), New Horizons Computer Learning Centers, UNILAG Akoka branch (May 2026)
- Certificate of Completion, Full Stack Web Development, AnchorSoft Academy (Sept 2022)
- Certificate of Competence, Full Stack Web Development, AnchorSoft Academy (June 2022)
